

Israel has developed a Bagrut (matriculation) stream in Amharic. The FPF was requested by the Rigler Religious Academic High School to purchase Amharic textbooks for the students in the stream in their school. We obviously filled their request and received the following letter of thanks:

The Rigler Religious Academic High School Netanya

Netanya**

Re: Thanks and appreciation

We wish to thank you from the bottom of our heart for your generous donation to our school for students in the Amharic stream.

The 10 copies that were purchased will benefit the students who will use them in their 'Bagrut' (matriculation) studies in the Amharic language. In addition, the books will help them in their future learn about and value their traditions.

With gratitude and Blessings
